

# **Next Generation Crypto Tokens Backed with Real Value**

Book worm is an innovative and state-of-the-art crypto currency project that aspires to facilitate middle school children in overcoming their reading difficulties through high-end reading games and redeemable real value worm tokens. Book worm is a non-profit project endeavoring to encourage children in improving their reading skills.

Here is a quick sneak peek into the Book worm mechanism and countless benefits that it offers.

## **Earn While You learn — Play Cool Games to Win Worm Tokens**

We have cool reading games on our website which children can play anywhere, anytime. There are exciting redeemable Book worm tokens that readers can win through these games.

All the Worm tokens available on our platform are 100% redeemable. Users can utilize these tokens to buy amazing merchandise from our online store. All the tokens are on Binance Smart Chain and hold real value. This is where Book worm excels in the world of crypto currency by adding an element of encouragement and genuine love for reading through its user-friendly platform.

## **Bright Opportunities to Grab Scholarships**

Being a non-profit company, we always aspire to offer maximum encouragement to middle school children. An enticing crypto currency platform always keeps gaining more popularity and an increasing number of token holders with time.

We always value the dedication of our users to the fullest. Book worm promises to offer scholarships to the worthy token holders once our platform gains landmark popularity. Winning Worm tokens and retaining them would bring massive opportunities for the readers to acquire amazing scholarships.

We hold contests in local schools each year to take our profitable Worm tokens to children in schools. These contests offer cool prizes and Worm tokens that can be won by participating in a wide range of reading games.

## **User Autonomy. Safe Transactions. Seamless Payments.**

### **All Under One Shell.**

Worm tokens offer all the benefits that a reliable crypto currency should have. Unlike conventional fiat currencies, these tokens offer a complete autonomy to the users. Worm token holders will have complete ownership of their tokens without the compulsion of any government policies.

Sending and receiving of payments is no more a hassle with these Worm tokens. There is no approval required from any external authority. There would be no deduction of withdrawal or deposit fees at all. Users can easily enjoy games, win prizes, and redeem the tokens to buy amazing merchandise from our online store.
